

EXHAUST FANS & ACCESSORIES

Fan Flex Connection

Reduces vibration from the fan to the ductwork.

No. FAN-FLEX-6	6"
No. FAN-FLEX-8	8"
No. FAN-FLEX-10	10"
No. FAN-FLEX-12	12"
No. FAN-FLEX-14	14"
No. FAN-FLEX-16	16"
No. FAN-FLEX-18	18"
No. FAN-FLEX-20	20"

Vibration Reducer

- Bolt-Down vibration-damping mount
- Neoprene
- Steel base
- 3/8"-16 thread
- 130 lb. capacity
- Rated for project fan selection

Vertical isolators used when hanging fans indoors (available upon request).

No. VIS-12

Backdraft Damper

- Heavy-duty backdraft damper with a double flange channel frame
- Provides shut off in HVAC or industrial process system
- 14-gallon galvanized frame and blade material
- 2V blades

Fan Duct Transition Fittings

- For VUSF series fans
- Duct fitting transitions from the fan inlet diameter to the main duct diameter

No. VUSF-IN Inlet

- For VUSF series fans
- Duct fitting transitions from the rectangular fan outlet to the main duct diameter
- 45° hood with bird screen comes with outdoor mounted fans

No. VUSF-OUT Outlet

- For AF series fans
- 45° hood with bird screen

No. AF15-OUT
