

1.6-Gallon Manual Extractor & Discharge Pump

JDI-150DE

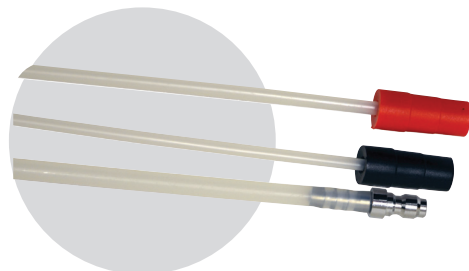

NOTABLE FEATURES

- 2-in-1 dual-use pump to extract and discharge
- Energy saving, manual operation
- Chemical-resistant heavy-duty polyethylene construction
- Automatic pressure relief

This 2-in-1 Manual Extractor and Discharge Pump is versatile enough to remove a variety of fluids from all types of vehicles and equipment while also providing you with discharging capabilities. With its manual operation, you can easily use this pump anywhere and switch from “In” to “Out” without the need for compressed air. Use any of the three extractor tubes in filler ports and dipstick tubes.
