

EV & HYBRID SERVICE & SAFETY REPAIR PNEUMATIC GLOVE TESTER

JDI-PGT

Test Electrical Insulating Gloves for damage and leaks.

FEATURES:

- Conduct a simple, visual test by inflating the gloves then immersing in water to detect any air leaks
- Dispose gloves immediately if you discover any leaks, damage or other defects

This Glove Tester is recommended by standard IEC 60903:2014 for the periodic testing of Insulating Gloves Classes 00 to 4.
