

STATIC GROUNDING REEL

When you need a grounding wire while working with fuel products, this compact Static Grounding Reel is the safe solution. The static grounding reel includes slow retraction, a ratchet-locking mechanism and auto-release during wire over-stretching to maintain safety at all times.

Static Grounding Reels are ideal for:

- Refueling stations
- Fuel tanks
- Stationary and mobile fuel delivery trucks
- Maintenance/industrial
- Aviation refueling
- Any hazardous areas with potentially dangerous static electricity

- Easily transports and fits in any area with compact design
- Slow retraction
- Stop at any point with ratchet-locking mechanism
- Auto release during wire over stretching for reliable safety
- 75 ft. cable length
- 3 Mounting options (ground, wall, ceiling) with mounting template
- Adjustable hose stop

SPECIFICATIONS:

JDI-SGR75

DIMENSIONS	10"L x 10"H x 4"W
DIAMETER OF STEEL CABLE	3/32" (2.5MM)
DIAMETER OF TRANSPARENT OUTING COATING	5/32" (4MM)
WEIGHT	18 LBS.
